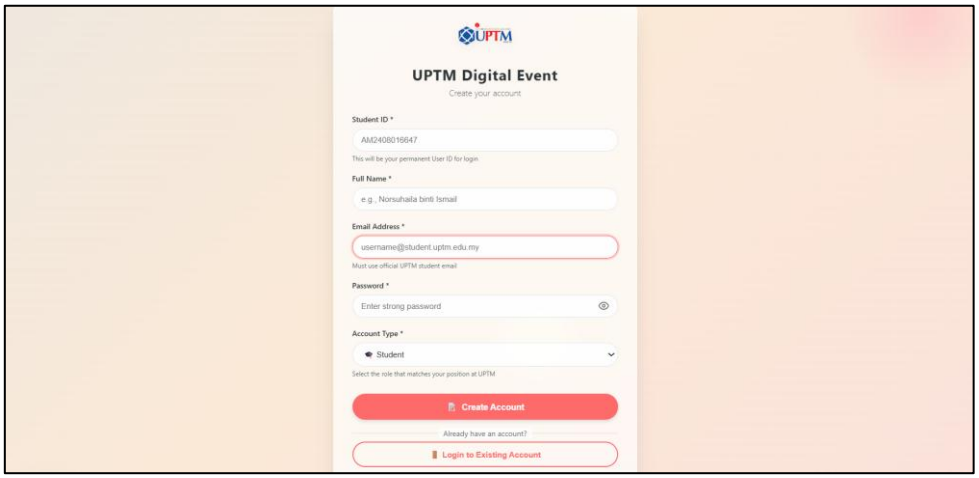
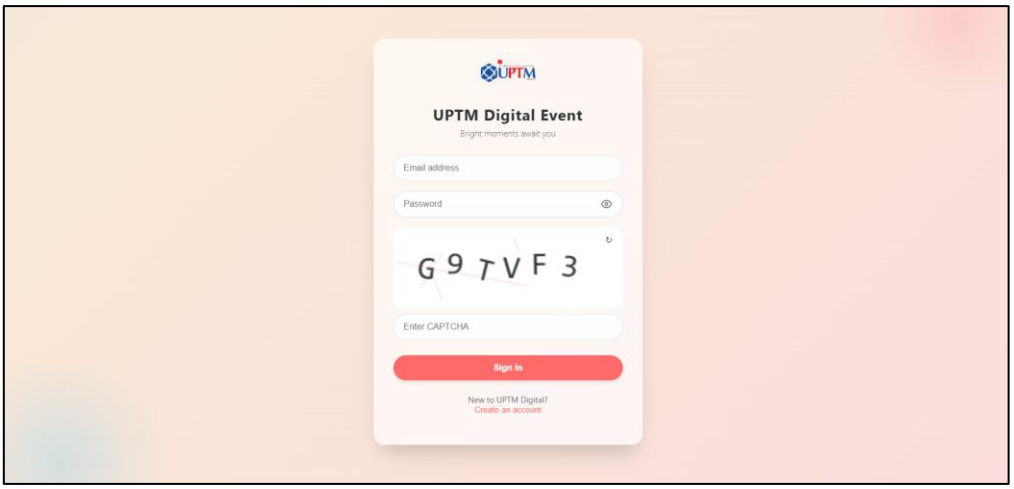
USER MANUAL

For Admin and Organizer

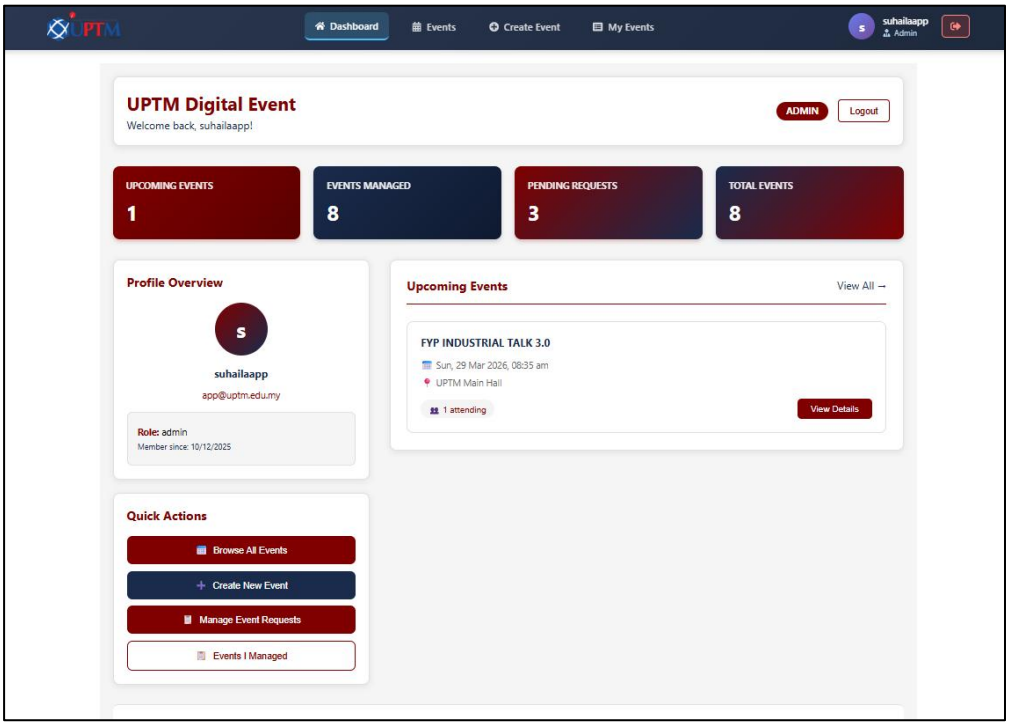
1. Register - Create a new account.



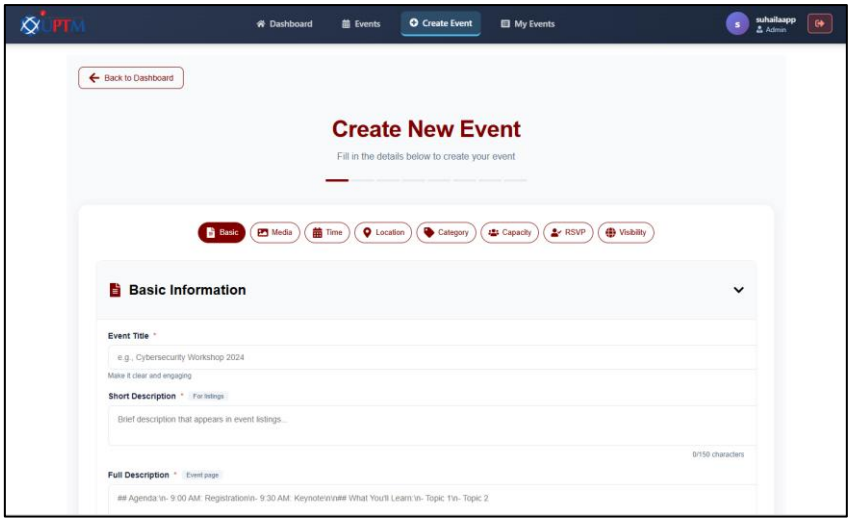
2. Log In – Enter your credentials and complete the captcha.



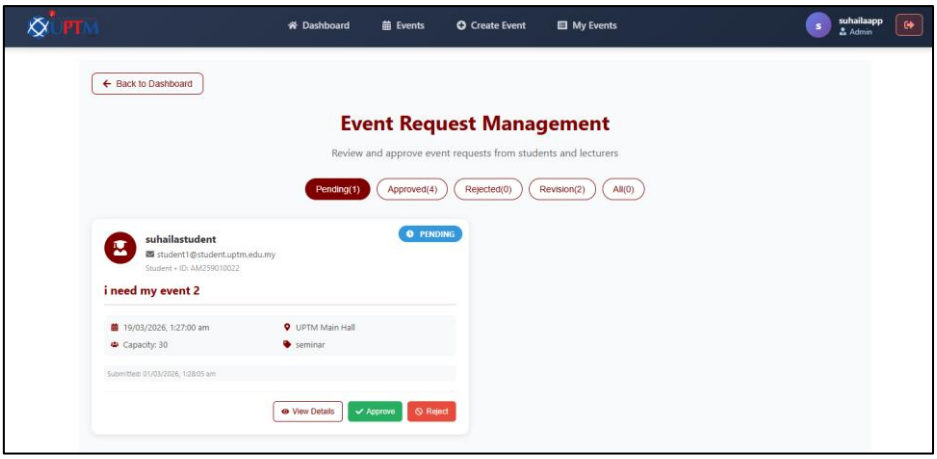
3. Access the Dashboard – After logging in, you will see the dashboard.

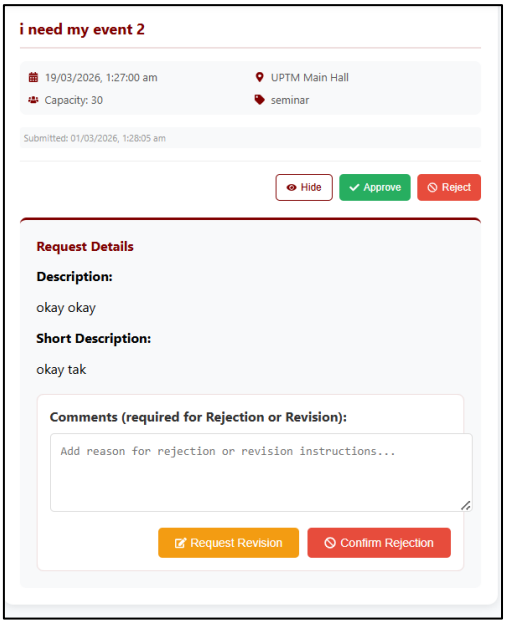


4. To create a new event, click the appropriate button. All fields must be filled in, including:
    a. **Basic Information:** Event Title, Short Description (max 150 characters), Full Description (supports Markdown), Event Code (optional).
    b. **Media:** Upload an image (JPEG, PNG, GIF, max 5MB) or use an image URL. AI generation tools (Canva AI, Bing Creator, Ideogram, ChatGPT) are available.
    c. **Date & Time:** Start and end date/time. Duration can be calculated automatically or set manually.
    d. **Location:** Choose physical or online event. For physical events, specify the venue, room, or building.
    e. **Category & Audience:** Select event type, faculty, and target audience (students, lecturers, staff, alumni, public).
    f. **Capacity:** Maximum capacity and minimum attendees required.
    g. **RSVP Settings:** Choose between mandatory RSVP (with deadlines for RSVP, cancellation, and preparation time) or optional attendance. Set rules for walk-ins and cancellation cutoffs.
    h. **Visibility:** Draft, Published, or Cancelled. You can also feature the event on the homepage.

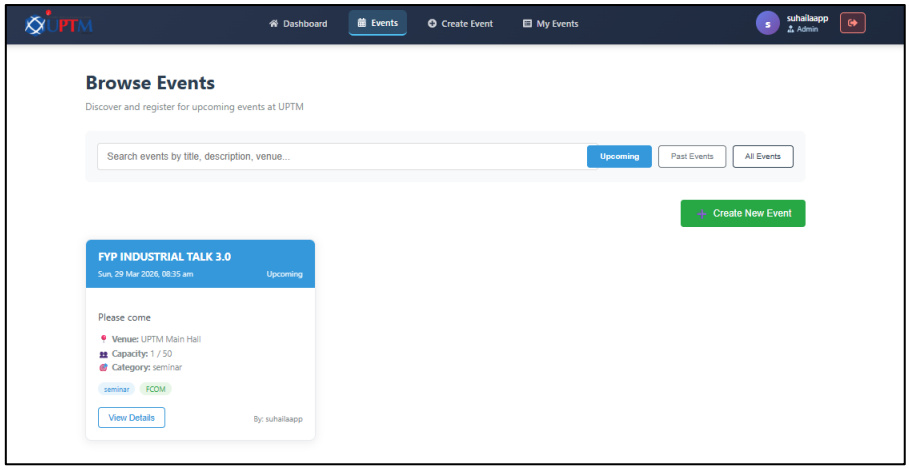


5. Manage Event Requests – Click the Manage Event Request button to view events requested by lecturers or students. You can approve, request revisions, or reject each request.

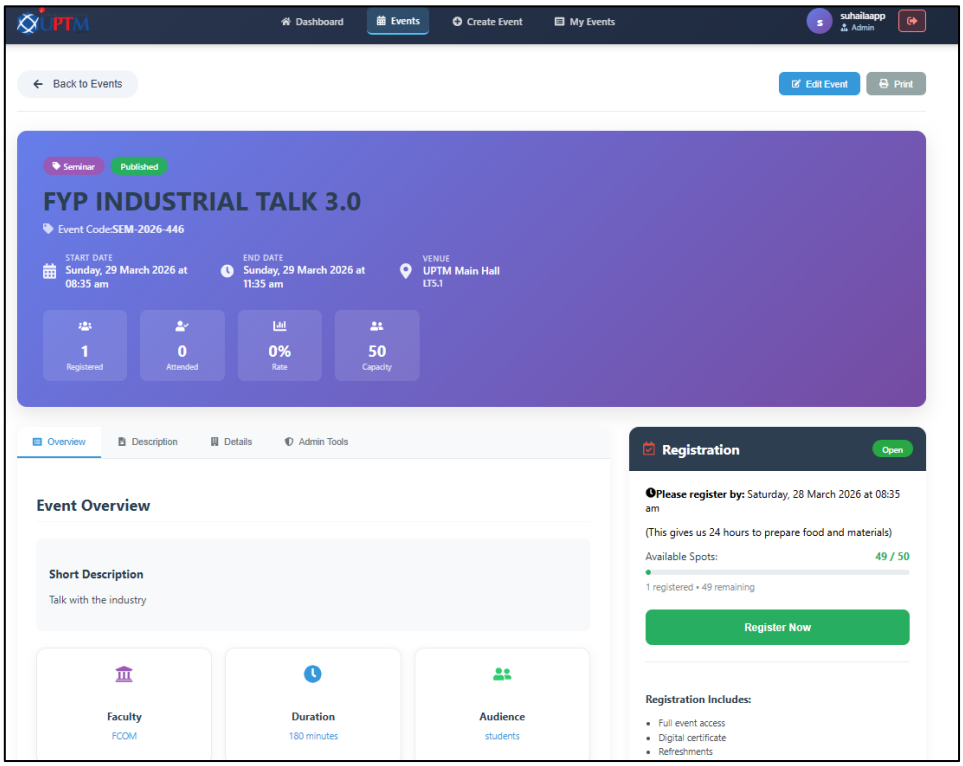




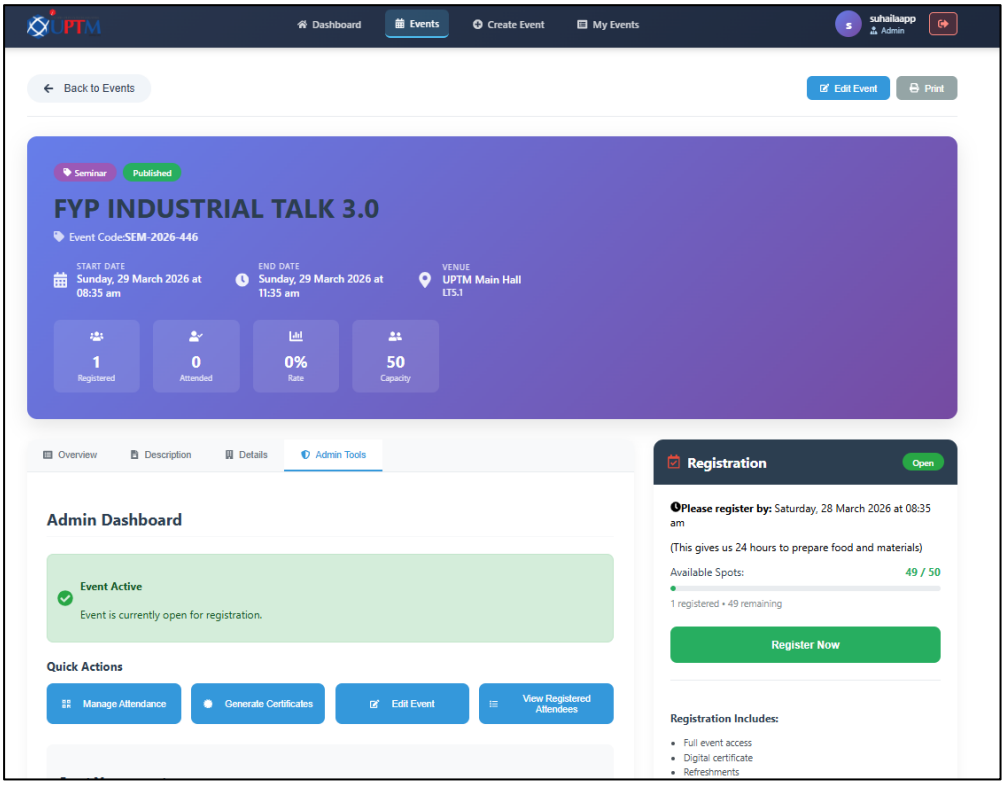
6. Browse Events – Click Browse All Events to view the full list of events.



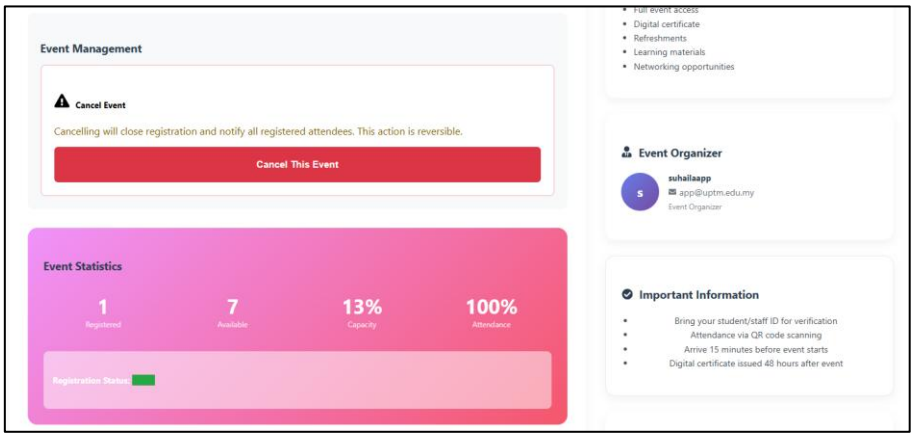
7. Browse Events – Click Browse All Events to view the full list of events.



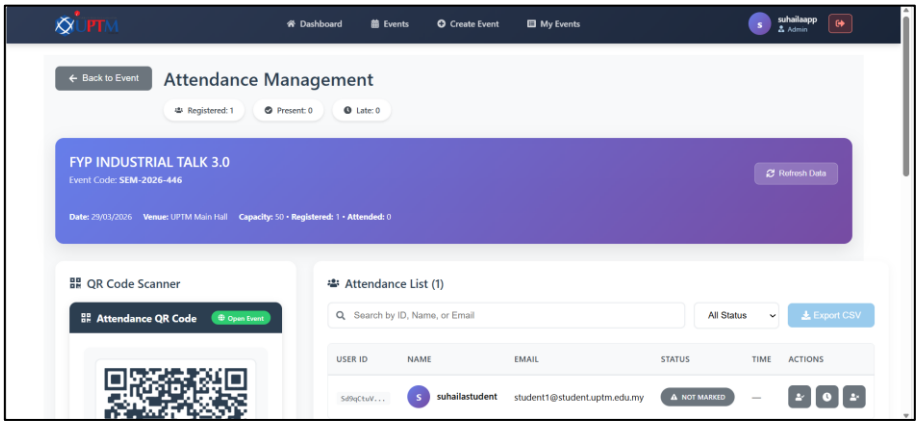
8. The Register for an Event – If you are interested, click Register.



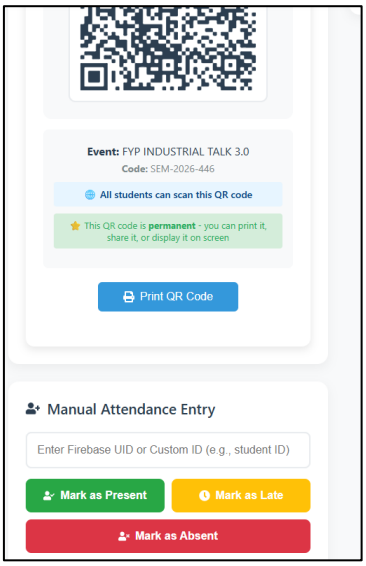
9. Cancel or View Statistics – Scroll down to cancel the event or see event statistics.



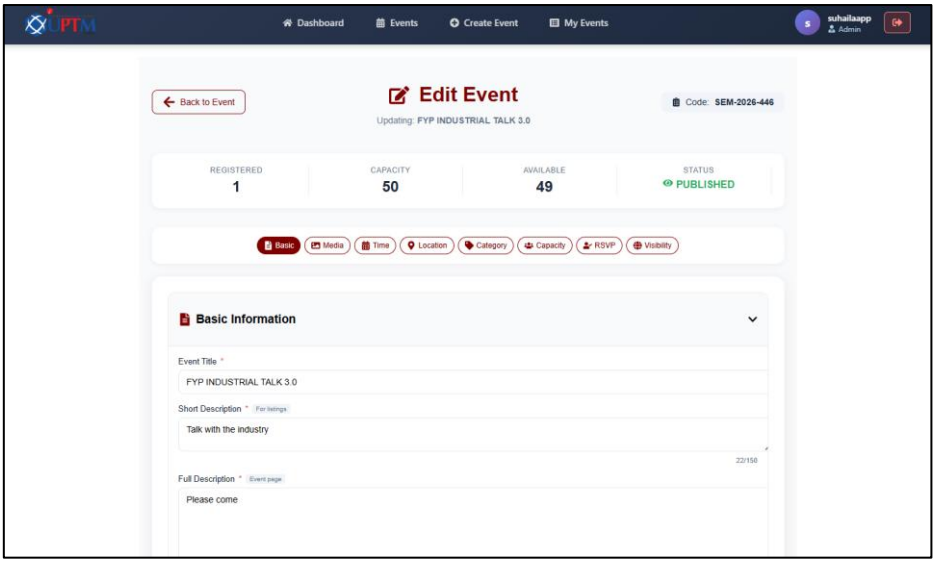
10. To manage attendance or generate print QR code, may click the ‘manage attendance’ button in admin tools.



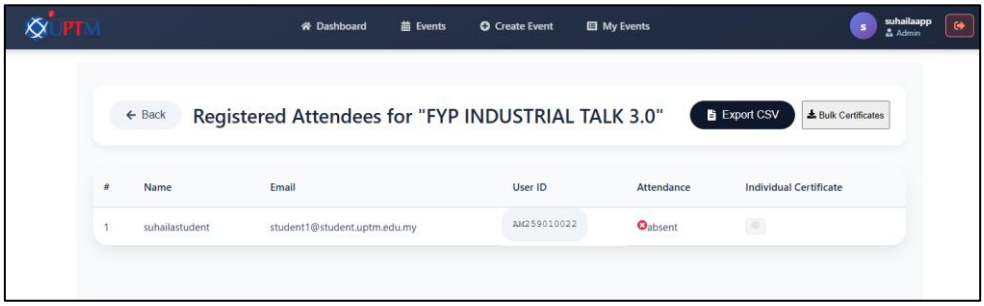
11. May click print button to print the QR Code and also can enter the attendance manually using participants’ ID. Also can mark the attendance in the actions button at the attendance list.



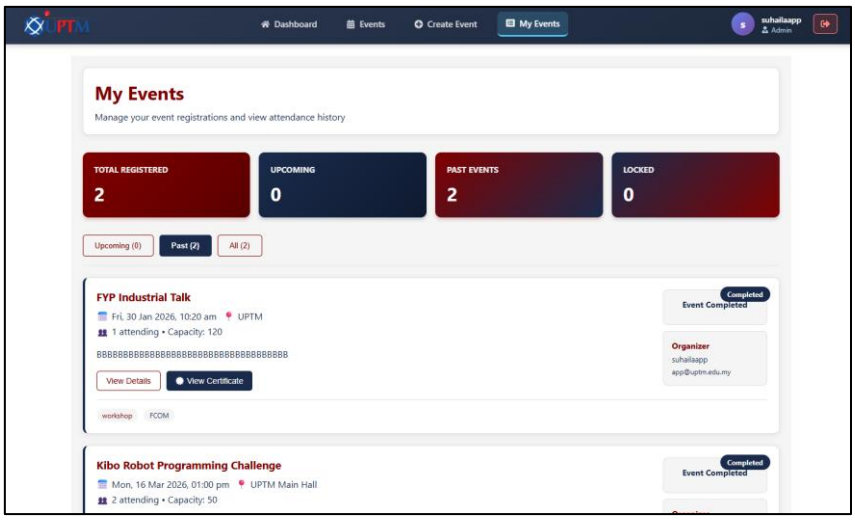
12. Edit Event – In Admin Tools, click Edit Event to modify event details.



13. View Registered Attendees – In Admin Tools, click View Registered Attendees to see the list of participants. From here you can export the list to Excel, or generate certificates (bulk or individual).

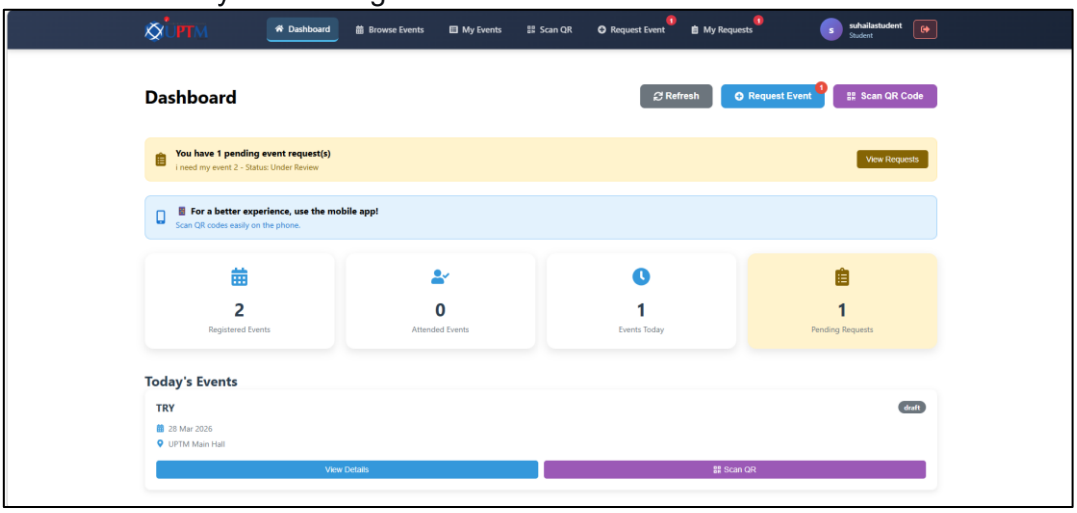


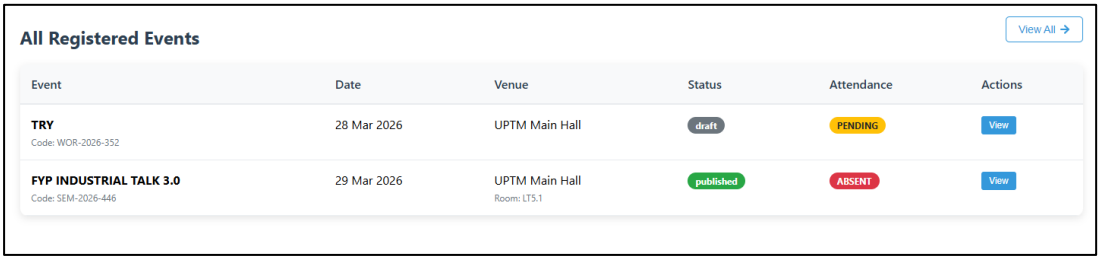
14. Events I Managed – This section shows events you have created as an admin or organizer.



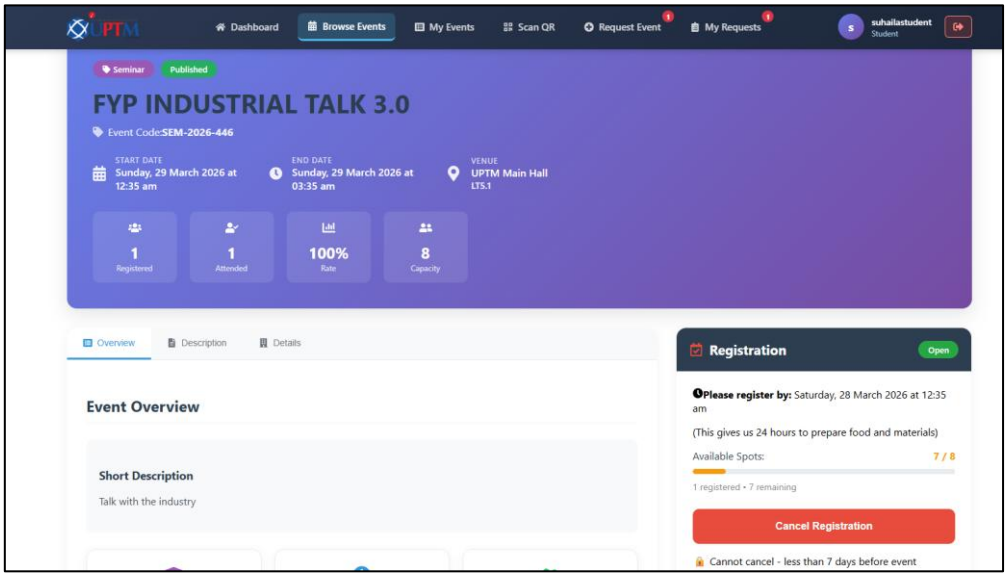
FOR STUDENT OR LECTURER (WEB APP)

1. Log In – Access the web app with your credentials.
2. Dashboard – After logging in, your dashboard displays:
    a. Pending event requests.
    b. Events happening today.
    c. All events you have registered for.

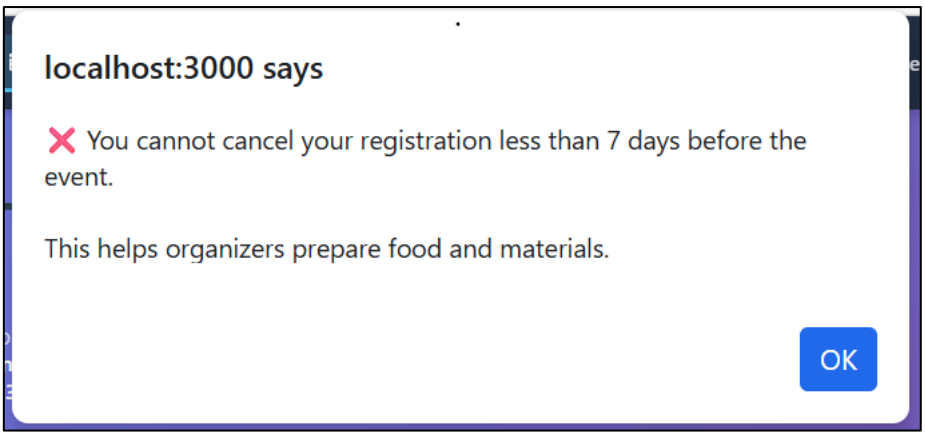




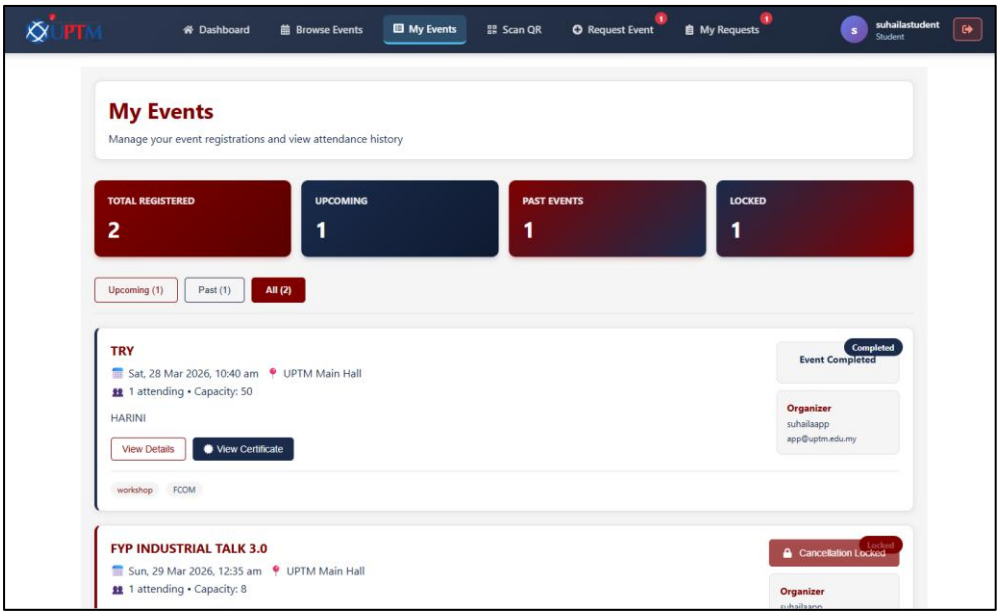
3. View Event Details – Click View to see details of any event.



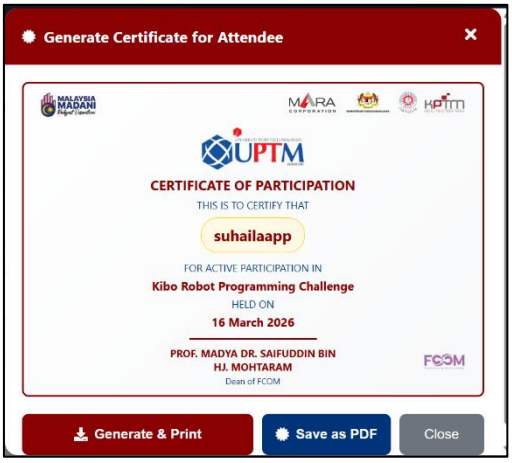
4. Register or Cancel – You can register for an event. If you need to cancel, note that cancellations are not allowed within 7 days before the event.



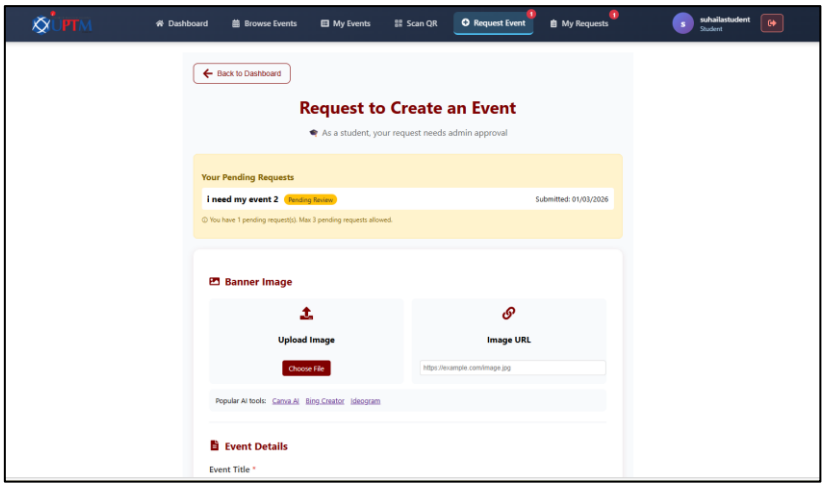
5. My Events – Click My Events in the navigation bar to see all events you have registered for.

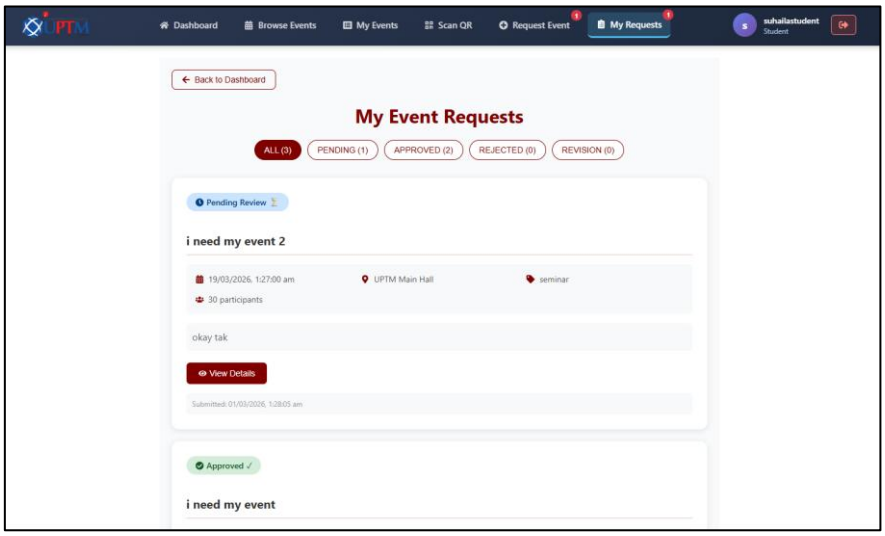


6. Certificates – If you attended an event, you can view or download your certificate.



7. Request an Event – Click Request Event and fill out the form, which includes:
    - **Banner Image:** Upload an image or use an image URL. AI tools are available.
    - **Event Details:** Title, short description (max 150 characters), full description.
    - **Date & Time:** Start and end date/time.
    - **Location:** Indicate if the event is online; provide venue and room details.
    - **Category & Audience:** Event type, faculty, and target audience (students, lecturers, staff, alumni).
    - **Expected Participants:** Number of anticipated attendees.
    - **Additional Information:** Notes for the admin.





8. My Requests – In the My Requests section, you can view the status of your requested events (approved, rejected, or needs revision).
